TEACHERS ARE IN A TURMOIL

Disappointed Over Board's Decision as to Salaries.

TALK OF AN ORGANIZATION

OBJECTION IS MADE TO PHYSI-

CAL EXAMINATION.

TN Salt Lake's public school system all is not harmony. Grief, disappointment, heart-burnings, oh, so bitter,

well therein.

The cause of this unusual condition of affairs is money; money, the root of all evil, and the subject discussed by the board of education at its last meeting. At that time, it will be remembered, the board adopted its new salary schedule. It is this achedule that is schedule. It is this schedule that is responsible for the awful dissension in

Salary has ever been the greatest of the board of education's troubles. But Thursday evening the heaviest thunderbolt of all was sprung. The new schedule was great to look at as a whole. It raised the maximum sal-avy of principals from \$135 to \$145, and the maximum sale-, of teachers from \$70 to \$30 a month. It looked good to It raised the maximum sal the teachers the next morning, thus they discovered the provision that, although the principals get their increase in a lump at the beginning of the next school year, the teachers get their increase their increase in the second year. teachers the next morning, unt crease in small dabs—namely, \$5 or \$2.50 a year, according to the present salary, until the maximum is reached. This means that teachers who have ready worked six or seven years and are receiving \$70, for instance, will have to work four years more before they

tunately, say the outraged in structors, not a great many of them are on the verge of gray hairs, and the money realized from the board's largemoney realized from the open a large mess of heart may possibly be utilized in some way other than as a legacy to their grandchildren. But they are indeed, sore at heart and tull of indignation. Salt Lake's teachers are dignation. Salt Lake's teachers are mild; usually, but now they actually have whispered among themselves as to the advisability of organizing to get

Teachers' Union Suggested.

Said one young instructor who has ta ght school here for five years, and is now receiving the munificent sum of The great trouble is that the teach-

ers have no organization, and are afraid to stand up for their rights. The board of education has had its own way all along, and what few efforts we have made to organize and thus put a stop to the unfair conditions that are conto the untail conditions that are obtained imposed upon us have been dismal failures. That the teachers have not been and are not now being treated right is well known. The principals, however, have stood together, and they

however, have stood together, and they get about anything they want. They agreed to look after the interests of their teachers, too, but there is certainly no evidence that they have done anything in that direction."

The complaint of the teachers does not end with the peculiarities of the increase in salary. It is general. They protest against the condition that principals are given a contract that calls for ten months' salary, "whether school keep and they can be dismissed at any time for any cause, although when they resign a notice of though when they resign a notice of though wher they resign a notice of their intention is required by the board.

Object to Health Conditions.

They strongly protest against the condition that compels them to present a doctor's certificate of perfect health before their salary may be raised, and ctill more violently they oppose the clause which compels them to submit to a physical examination by any doc-

tor whom the board may select.

The anger of the teachers has led up to considerable talk of a mass meeting for the purpose of organizing and de-

HEALTH OF THE CITY.

Scarlet Fever and Diphthe ia Situa tion About the Same. mortality report of Balt Lake

The mortality report of Sait Lake
City for the week ending April 19
shows the death of nine males and fifteer females. Of these, two were
shipped to other places for interment.
The births rejorted for the same period
numbered twenty-five, of which ten
were males and fifteen females.
There is little change in the situa-

tion regarding contagious diseases. At the close of the last report there were isolation, During the week seven new eases were reported, one died and

WATER FOR FORT HALL. Illinois Capitalists Enter a Big Irrigation Scheme. A scheme to irrigate a large part of the ceded portion of the Fort Hall res-ervation, together with other land, is ervation, together with other land, is being worked out by a party of Illinois capitalists who spent yesterday in Salt Lake. The party is headed by F. J. Bridge, vice president of the American Falls Water Power, Light & Irrigation company, which has been incorporated with a capital of \$300,000 to carry out

be project. It is proposed to erect a power and

It is proposed to erect a power and pumping plant at American Falls. With the power obtained at the falls water will be pumped to an elevation which will enable the irrigating of a vast tract of land. Some of the richest land in the portion of the Fort Hall reservation, which is to be opened soon, would be practically valueless if some would be practically valueless if some such scheme to supply it with water were not carried out. The system proposed is successfully used in irrigating rice fields in Louisiana, and it is pronounced by the engineer who accompanies the party to be entirely feasible. Nearly all the members of the party are from Joliet, Ills. They are thoroughly convinced that the project can be successfully carried out, and they propose that it shall be. The party came in on a special car over the Cre-

panied in Helena. A French horn played in Salt Lake, companied on a plano in Helena, was eard last evening in Great Falls, la and other places hundreds of y. R. J. Jessup stood in his home, South Fourth East street, at 9:20 ock last evening, placed the mouth

began to blow. At the same time plano in Helena started up, acanying the music on the horn, 444 away. At Missoula, 560 miles Salt Lake, at Great Falls, 546 away and at other places people led. The music was kept up for minutes.

The funeral of John Engbeck, who died in this city on April 17, will occur this fternoon at 2°c'clock from the Thirteenth ard meeting house. Deceased was a ative of Sweden, aged 39 years, and was
